

## LABOR LEADERS READY FOR FIGHT

Say Coming Legal Battle  
Will Be to a  
Finish.

Los Angeles, Cal., January 2.—Olaf A. Tivimoe, of San Francisco, who, with Antonio Johnson, also of that city, and J. B. Munsey, of Salt Lake, was arraigned in the Federal court today on a charge of being party to a dynamite conspiracy, departed for his home last night. Johnson went with him, but Munsey elected to stay here until the time set for his plea, January 12.

Speaking of the coming legal battle Tivimoe declared, "It will be a fight to a finish."

When told that Detective Burns in Indianapolis today said he had soon expected to collect \$7,500 which Tivimoe offered in the Trade Council for the arrest of the persons guilty of causing the Los Angeles explosion, Tivimoe said he would lay the matter before the council when the time came for action.

Attached to the indictment as it was read in court, was a letter alleged to have been written by E. A. Clancy, of San Francisco, also indicted. It was said to have been written in Los Angeles June 3, 1910, on a letterhead bearing the words:

"Eugene A. Clancy, 200 Guerrero, San Francisco, Cal., International Bridge and Structural Workers, office of the vice-president, and was signed 'E. A. Clancy.'"

It was said to have been addressed to J. J. McNamara, an Indianapolis, and read in part as follows:

"Dear Sir and Brother: 'I have been here five days now, and they have started here the greatest strike any part of the country has had in a long time. All the shopmen of the Union Iron Works, Baker Iron Works and Llewellyn Iron Works are out, and we are about to start a new local here. All the machinists, molders and patternmakers are out, and they are helping each other. The State Building Trades Council have a man here, A. Johnson. He used to be with the woodworkers in Chicago, also Stewart Reid, of Chicago. Now Joe, who we want here, is a floorman. The greatest opportunity is here now. I cannot stay here. It is impossible, but I have things going here. Frisco is behind this move, heat and soul, and we are going to put some money in here. The state council is going to put an assessment on, so you see that means weekly, so now is the time. The painters, tanners, the carpenters have a man here already. I wish I could stay, but Joe, who is the man to take it up with them, at once, the best man for the position. I hope Frank is at the office when this arrives, so he will send Joe to Frisco. I leave here to-morrow night for Frisco."

Exchange Congratulations. Indianapolis, Ind., January 2.—District Attorney John C. Vandergriff, of Los Angeles county, Cal., and Oscar Lawler, special government prosecutor in Southern California, met Detective William J. Burns here to-night for the first time since last summer when he brought to Los Angeles evidence for the trial of the McNamara brothers.

"It was a fine bit of work on your part," commented Burns to District Attorney Vandergriff as they chatted over the events that drew forth the confessions of the McNamara brothers.

"And the complaint is returned," remarked Vandergriff as he recalled the arrest of the McNamara brothers by Burns and his men. After the exchange of mutual congratulations they talked earnestly about various phases of the investigation being conducted by the government here.

Mr. Vandergriff was subpoenaed by the federal grand jury of this district which resumes to-morrow its investigation in this city of the alleged dynamite conspiracy. Mr. Lawler will actively assist United States District Attorney Miller in the handling of the inquiry here, and both Mr. Lawler and Mr. Fredericks admitted having brought evidence embracing the entire California end of the alleged conspiracy.

Chicago, Ill., January 2.—The defense of Mrs. Rene Morrow, who is under arrest, charged with the murder of her husband, Charles B. Morrow, an inventor, was complicated today by a story told at her preliminary hearing by Dr. Arthur W. Morrow, a stepson of the deceased. The doctor testified that the inventor came to his home two weeks before his death, December 25, and told substantially the following story:

"I was awakened by a noise in my room. I found some one standing over me with a weapon. I leaped from the bed and knocked the pistol from the intruder's hand, and then found it was my wife.

"I want to come to your house and get some sleep and something to eat. I am afraid at home; my life has been threatened several times."

Inasmuch as it had been agreed that the examination now would proceed only far enough to enable Municipal Judge Fike to determine whether the woman would be admitted to bail, Morrow's testimony was ordered excluded from the record. Morrow was found shot to death on the rear porch of his home. Mrs. Morrow said she heard shots, but had feared her husband would end his life, because he had threatened to do so. She said she had not seen him since the night before.

CONDITION NOT SERIOUS. Irish Leader Redmond Resting Easily, but Suffers from Spinal Shock.

Arlow, January 2.—John E. Redmond, the Irish nationalist leader, who was thrown from his horse on last Saturday and severely injured, is resting easily, according to his physicians it will be several days before he will be in a condition to attend to business.

Mr. Redmond is suffering from spinal shock. His condition causes no anxiety, however, and he is progressing favorably. No visitors are allowed to see him.

## Suffered Twenty-One Years— Finally Found Relief.

Having suffered for twenty-one years with a pain in my side, I finally have found relief in Dr. Kilmer's Swamp-Root. The physician called it "Mother's Pain," and injections of morphine were my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefited me for two years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend told me to try your Swamp-Root, and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle, and am feeling like a new woman. I passed a gravel stone as large as a big red bean and several small ones. I have not had the least feeling of pain since taking your Swamp-Root, and I feel my days so much longer that I feel I can live to see my children.

Gratefully yours,  
MRS. JOSEPH CONSTANCE,  
Avoyle's Par. Marksville, La.

Personally appeared before me, this 15th day of July, 1911, Mrs. Joseph Constance, who subscribed the above statement and made oath that the same is true in substance and in fact.

W. M. MORROW,  
Notary Public.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince any one. You will also receive all about the kidney and bladder, when writing, be sure and mention the Richmond Daily Times-Dispatch. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

## PICTURES FAKE, SAYS GOMPERS

Labor Leader Declares Photo-  
graph "Doctored" by Los  
Angeles Artist.

Washington, January 2.—Samuel Gompers to-day denounced the pictures purporting to show him standing on an American flag while making a speech, as "a rank fake, a palpably composite picture, part of a conspiracy to defame me in the eyes of the public."

"I would as soon insult the members of my revered mother as to insult the flag of my country," added Mr. Gompers.

The president of the American Federation of Labor said further that the pictures originated with the art department of the Los Angeles Times, and you know how fair and how truthful emanations from that paper concerning me are likely to be," he added.

Story an Old One. The charge that he and Kelly insulted the flag is not a new one, according to Mr. Gompers. It first appeared in the Los Angeles Times in connection with the matter came up for action before the Stanton Post the Grand Army of the Republic, of Los Angeles. In reply to an inquiry from a member of that post, Mr. Gompers telegraphed a denial of the accusation, which was read at the post meeting.

In that telegram, and in his formal statement to-day Mr. Gompers said that a flag was fastened on the sides of the table on which the speakers at a mass-meeting stood, but that the flag did not overlap one inch of the horizontal surface of the table, and no speaker stepped on the flag or could have stepped on it, "unless able to walk like a fly."

"The Los Angeles Times also published a picture showing alleged footprints on a flag," said Mr. Gompers, "and this, too, is a rank fake."

Other alleged denunciations of the American flag by union laborers were called to Mr. Gompers' attention to-day. He was asked about the incident in the Labor Day parade in New York when a flag is reported to have been carried horizontally one man at each corner to catch silver thrown for the McNamara defense fund. It was asserted at the time that so much silver was thrown that the flag became heavy and that the four men permitted it to drag on the street for many blocks.

"I have not heard of the incident. I do not believe it happened," replied Mr. Gompers.

After about the resolution adopted in 1907 by the Western Federation of Miners, "was another question asked, 'when the federation denounced the American flag as a symbol of despotism, of wage-slavery despotism?'"

"I know nothing about that," replied Mr. Gompers, "but this I have heard. A man named O'Brien, in Chicago, president of the Chicago Building Contractors' Association, refused to allow the American flag to be used at the banquet he was giving to honor Mr. Gompers, but he said it did not represent liberty."

Mr. Gompers said that a clipping he had in his office concerning the Oakland flag incident, as first represented pictorially in the Los Angeles Times, clearly showed the picture to be a fake. Mr. Gompers and his secretary sought hard to find this picture to show it to newspaper men present, but they were unable to discover it to-day.

Mr. Gompers says he does not think that the public generally will believe that he stepped on the flag at the Oakland meeting.

Chicago, Ill., January 2.—Fire, which broke out to-night for the second time today in the packing house buildings of Swift & Co., in the heart of the Union Stock Yards, adjoining the scene of the disastrous fire of a year ago, threatened the whole Swift & Co. plant, and many adjoining structures. The first blaze did about \$25,000 worth of damage to the packing house buildings, driven by a cold wind, drove firemen back and made certain a large loss.

It started in the smokehouse, a long, five-story brick building, and before the additional fire apparatus arrived today in the packing house buildings of Swift & Co., in the heart of the Union Stock Yards, adjoining the scene of the disastrous fire of a year ago, threatened the whole Swift & Co. plant, and many adjoining structures. The first blaze did about \$25,000 worth of damage to the packing house buildings, driven by a cold wind, drove firemen back and made certain a large loss.

The blaze started within half a block of the building where a year ago Fire Marshal James Horan and twenty-four of his men met death beneath the ruins of the Morris & Co. warehouses. Early estimates of the loss were placed by Fire Marshal Seyferth at from \$100,000 to \$500,000.

Grain Man Sues Exchange for Alleged Blacklisting. Wilkes-Barre, Pa., January 2.—Richard J. Peters, dealer in grain, who says he has been boycotted and blacklisted, yesterday signed papers in a suit against the Corn Exchange of Buffalo and fifty-two individual brokerage firms and others of Buffalo and vicinity.

United States Attorney-General Wickersham has directed that there shall be a hearing of this case before the United States Circuit Court for the Western District of New York in Buffalo next Thursday.

Patterson asks \$150,000 damages. He says that he was blacklisted for several years in buying grain in Buffalo. He now says that the fifty-three defendants conspired to ruin his business, that he was blacklisted on the Buffalo Corn Exchange, and as he cannot buy there, his business suffers. He must buy at more distant points.

SOCIALISTS EXPECT GAINS. Present Representation in Reichstag May Be Largely Increased. Berlin, January 2.—The likelihood of a large increase in the representation of the Socialists for the general election on January 19 is giving away at the turn of the year. This is partly owing to a realization of the prospect that the Socialists' energy, threatened to snap the harvest of votes.

The Socialists are holding thousands of meetings throughout the empire every night, while the other parties are pushing their cause to the utmost. Conservative politicians estimate that the Socialists will gain enormously at their present representation of 92,479 in the Reichstag will be increased to 100,000.

The Pan-Germans are gadding the government to enter the first and import some issue which is likely to roll back the Socialist flood, but the government so far has given no sign of taking any such action.

## PERMANENT FEDERAL AGENCY NOW NEEDED

Secretary Nagel Believes Time Is Ripe for Thorough Supervision by Government of Corporate Business.

Washington, D. C., January 2.—"The mere breaking up of large combinations into a number of separate parts by no means meets the whole trust question," says Secretary Nagel, of the Department of Commerce and Labor, in his annual report, transmitted today to President Taft.

Secretary Nagel declares that the Sherman law has been proved to be an effective statute beyond all doubt, and that a degree of combination of capital is admittedly essential to the carrying on of our modern business enterprise," says Secretary Nagel, "but combinations we must have some administrative Federal office or commission, which shall make this work its business."

Combination Essential. "A certain degree of combination of capital is admittedly essential to the carrying on of our modern business enterprise," says Secretary Nagel, "but combinations we must have some administrative Federal office or commission, which shall make this work its business."

"We must have a permanent authority, which shall, by steady and continuous supervision and publicity, safeguard the public interests and at the same time allow full scope for necessary and proper business efficiency and development."

The report of the Supreme Court in the Standard Oil and American Tobacco Company cases have been forcibly to the public attention a fact repeatedly presented in the reports of this department—the imperative need for the positive administrative regulation of the great industrial corporations.

"The recent decisions and reorganization which followed have made it clear that another imperative step remains to be taken, and that this is the establishment, by appropriate legislation, of a broad system of supervision."

Secretary Nagel refers in passing to recent criticism of the immigration service. He says the bureau has endeavored to obey the general mandate of the law and relieve the individual of hardship wherever the statute allows it.

One of the greatest operations of the year in Secretary Nagel's department was the completion of the thirteenth census.

A very important investigation on the cost of living is now being carried on by the Bureau of Labor. "The report promises to provide a basis for intelligent discussion of the much-mooted question," says the secretary.

He had a lot of experienced horsemen in the prison, so he arranged for a penitentiary roundup show. It was successful from the word go.

Then when the Penitentiary Roundup came the Governor, who is a keen sportsman, picked out Jim Spaul from among his convict horsemen, most of whom were "sent up" for cattle rustling in the back counties, and lent him to the roundup officials for the show. Spaul won some roping and bucking and bucking prizes, and then went back to the penitentiary.

When one of his "honor men" broke his parole and went sneaking away from the middle counties for shelter in the timber, Governor Webb sent out a few guards and some "honor men" after him. Several of the "honor men" asked to go. They said that 90 per cent. of the convicts in the penitentiary wanted to lynch the fellow who was sneaking away.

The searching party for the roundup officials, but didn't find the man in time to suit Governor Webb. So Webb decided to go down and boss the job. Evidently he knew how, for the second day one of the "honor men" with the searching party, who by the way, was after the convict, was killed.

When Governor Webb committed the death sentence of Jesse P. Webb, convicted of one of the most atrocious murders in the history of the Northwest, Oregon was not amazed, though perhaps a bit startled. Webb, with a woman accomplice, murdered William Johnson, a wealthy rancher, of Puyallup, Wash., in a hotel room, striking him over the head with a door knob, took \$2,500 which Johnson had in his pocket, bought a trunk, placed Johnson's body in it, had it loaded on an express wagon and hauled to the union passenger station, where he checked it to Puyallup. Webb was the woman who was arrested in another hotel at 2 o'clock the next morning as they returned from a swim around the road houses that skirt the city.

Convicted, Webb fought hard against the death penalty that was imposed. Everything went against him and the day of execution was set. Webb was to have been hanged at 12 o'clock noon.

EARTHQUAKE REPORTED IN SEVERAL SECTIONS. Chicago, Ill., January 2.—Weather Forecaster C. G. felt an earthquake which sent a slight tremor through Chicago at 10:21 to-day.

"We have no instruments which record earthquakes here," said he, "but I felt the disturbance distinctly in my office. It was an east and west vibration, and lasted only a couple of seconds."

The seismograph at the Brooklyn College recorded a slight disturbance this morning shortly after 10 o'clock. The shock was of no great magnitude.

The seismograph at Marquette University, in Milwaukee, also registered a sharp disturbance of the earth's surface about 10:20 o'clock.

Politics in New York Police. New York, January 2.—Police Commissioner Waldo refused to comment last night on the cable statement of a London Scotland Yard official in connection with the false arrest of J. Edgar Hoover.

Waldo mixed up with the American police that we are always afraid that they move we make will be to aid a political maneuver." The statement was too foolish to talk about, he said.

## Something New, Novel, Artistic and Lasting. The Hit of the Century

### YOUR PHOTO ON A SOFA PILLOW

No other kind of fancy pillow is so beautiful and suggestive of pleasant memories.

If you want a gem of art, an absolute treasure, which will be a constant and pleasant reminder of father, mother, baby, relative or friend, your favorite horse, cat, dog, house or automobile, perhaps a boat or bathing scene, a picnic party or some other pictures dear to you, then send a good picture, either kodak view or portrait, and we will reproduce a beautiful enlarged lifelike photographic reproduction from it on a handsome mercerized saten sofa pillow top. There is no other way quite so novel to beautify your "den," parlor, club, sitting room, or any place where you want a touch of distinctive beauty.

OUR PHOTO PILLOW TOPS can be washed and ironed without in any way affecting the detail or brilliancy of the picture. Wear does not injure the picture, nor will it fade. It will remain distinct as long as the material lasts. The material is specially woven and is more durable than linen.

OUR WORK is a work of art and science, the result of many years of careful study and experimenting. The picture is enlarged on the pillow top 18x18 inches, and finished by a process known only to the artists we represent, which develops all the features of the original in perfect detail and likeness. It is the finest photographic enlargement that talent, genius and money can produce.

### OUR PHOTO PILLOW TOPS

Is the finest article in photographic art on the market. It is no way resembles the picture tops often on sale in stores or the cheap, flat prints furnished by some firms which will not stand washing and fade from exposure to light.
